

HABC Level 4 Award in HACCP Training (HAZARD ANALYSIS & CRITICAL CONTROL POINT)

Course Introduction

The qualification is suitable for those owning and/or managing food businesses to give them the underpinning knowledge to develop a HACCP study. The qualification is intended predominantly for learners already working in manufacturing or catering, with a sound knowledge of food safety hazards and controls. It covers the importance of a business having HACCP-based food safety management procedures in place, the processes involved such as prerequisites, process flow diagrams and determining critical control points, as well as how to draw all this information together in order to develop and implement HACCP-based food safety management procedures in a business.

Course Topics

- Introductory review
- HACCP and legislation
- Preparing for HACCP
- Prerequisite programmes
- Principles of HACCP
- Step 1 The HACCP team
- Codex steps 2-5
- Hazard analysis
- Critical control points
- Critical limits
- Monitoring
