

CITB Health & Safety Awareness (Labourers)

Course Introduction

The CITB Health and Safety Awareness course is part 1 of a 2-part process to gain your green labourers CSCS Card. The course is delivered by means of case studies, class discussion, and interactive group work and tutor presentation. Candidates will be assessed continuously and on conclusion of the course they will have to complete a multiple-choice test.

Course Pre-Requisites

All Candidates must be proficient in English in order to complete this qualification. ESW Level 1 in Communication is recommended.

Course Topics

- Individual's H&S Responsibilities
- Control of Common Construction Hazards
- Practical Standards of Site Safety
- Relevant Legislation
- Working at Height
- Manual Handling
- Fire Prevention
- Safe Use of Equipment
- Occupational Health
- The CSCS Processes & Routes

Course Benefits

Anybody that requires site access, as a labourer, must complete this course, in addition to the on-screen CITB Health, Safety and Environment Labourer Test before applying for the green labourer's card. Holding this card tables you access to work on all major construction sites as a labourer.
