

IPAF | Powered Access (Cat. 3a & 3b MEWPs)

Course Introduction

IPAF is renowned as *the* standard when it comes to powered access. This course aims to provide the knowledge and skills required to operate category 3a & 3b elevated platforms...

- **Category 3a** covers Mobile Vertical Lifts, most commonly used example; scissor lifts
- **Category 3b** covers Mobile Boom Lifts, more commonly known as cherry pickers

As IPAF is so widely recognised it is highly likely that a client or principal contractor will require an IPAF ticket to demonstrate that you or your workforce are suitably qualified to operate these types of equipment in the workplace. This also means that the qualification covers a very wide array of sectors from Construction, Maintenance and Cleaning Services, to Manufacturing & Engineering.

This course is delivered via a blend of practical and classroom teaching.

On successful completion of this course, the cost is fully inclusive of a hard copy of the IPAF PAL card alongside the IPAF app access of the ePAL card.

Download the IPAF app here:

iOS (apple) - <https://apps.apple.com/app/ipaf-epal/id1557633308>

Android - <https://play.google.com/store/apps/details?id=org.ipaf.epal>
